ARTICLE I APPRAISAL PROCESS AND PROCEDURES

A. PURPOSE

The primary purpose of the Performance Appraisal System is to improve effectiveness of the employee. This goal is achieved through individual professional growth and improvement. Professional growth and improvement are shared responsibilities of the individual, the appraiser, and his or her superiors.

For Non-Instructional members of the Act 93 group, to be effective, the process should provide for the clear identification of the scope of responsibilities of the employee and well-defined goals. Goals will encompass district goals and initiatives as set by the Board and Superintendent.

Non-Instructional members of the Act 93 group include: Director of Maintenance, Director of Athletics, Custodial Foreperson, Computer Network Supervisor, Information Systems Manager, Computer Technicians, and School Psychologists.

For Educational Supervisory members of the Act 93 group, the process will be in accordance with the Pennsylvania Principal Effectiveness model using the four domains: Strategic/Cultural Leadership, Systems Leadership, Leadership for Learning, and Professional and Community Leadership.

Educational Supervisory Members of the Act 93 Group Include: Assistant to the Superintendent, Director of Curriculum and Technology, Elementary Principal, Elementary Assistant Principal (10 or 12 month), Middle School Principal, Middle School Assistant Principal, High School Principal, High School Assistant Principal and Director of Student Services.

These areas of responsibility should be jointly reviewed periodically during which a general assessment of overall effectiveness is made and goals are agreed upon.

Among the outcomes of a performance appraisal system should be a higher level of staff performance, improved student services and achievement, a more accurate record of the status of performance of employees, a greater commitment to the importance of being evaluative minded in the performance of duties.

The compensation program is based upon the performance appraisal system and is designed to provide the employee with an incentive and reward exemplary performance.

This program as set forth is in compliance with and meets the provisions of Act 93.

Members of the administrative group included under this agreement who work a 10-month year are entitled the same appraisal process as presented in this plan.

B. DURATION OF THE COMPENSATION BASED APPRAISAL SYSTEM AND FRINGE BENEFIT PROGRAM

This Act 93 Agreement will be in effect for five (5) years to include the 2013-2014, 2014-2015, 2015-2016, 2016-2017, 2017-2018 school year.

C. POSITIONS COVERED BY MEMORANDUM

For the purpose of this document only, the term "Administrator" shall refer to the following employees: Assistant to the Superintendent, Computer Technician, Computer Technician Supervisor, Custodial Foreman, Data Information Specialist, Network Administrator, Psychologist, Athletic Director, Business Manager, Elementary Principal, Elementary Assistant Principal (10 or 12 month), Middle School Principal, Middle School Assistant Principal, High School Principal, High School Assistant Principal, Supervisor of Buildings and Grounds, Director of Technology, Director of Curriculum, and anyone else included under Act 93.

June/Early July	Superintendent presents evaluations and salary recommendations to Board.
July	Board takes action on salary recommendations, if any, for administrators.

F. THE APPRAISAL PROCESS

The appraisal process is one in which an employee, in joint effort with the appraiser, identifies goals, defines major areas of responsibility in terms of expected results, and uses these results as a means of evaluation. The major thrust of this appraisal system is to improve the skills and effectiveness of the employee, thus enhancing the entire school district.

The appraisal process provides for accountability and growth of the employee. It is based on the principles that good performance deserves recognition; poor performance requires improvement.

The appraisal process involves the following steps:

1. Self-appraisal and portfolio documentation.
2. Mutual agreement on criteria to be used to evaluate performance based on the appraisee's skills, job description, portfolio, individual goals, and district goals.
3. Interim progress meetings.
4. End-of-year appraisal.

Basic premises are established when setting goals and evaluating the appraisee. They are:

- District goals will be achieved.
- Building/program goals will be attained.
- Sound management produces results.
- Performance Appraisal facilitates growth.
- Leadership and accountability are essential.
- Good performance deserves recognition.
- Poor performance requires a planned program of improvement.

The appraisers will be in-serviced on an annual basis by the Superintendent to maintain continuity and uniformity district wide.

Self-Appraisal and Supporting Documentation

Self-appraisal should enable the employee to examine his/her strengths and to build on those strengths. In addition, it should enable the employee to recognize areas that need to be improved and to improve them.

The employee should examine the district's mission statement, the goals set forth in the strategic plan, and the yearly district goals. From these, the employee should determine three to five major goals to be accomplished during the school year.

The portfolio should help the employee in the self-appraisal process as well as provide a vehicle for demonstrating the accomplishments. The supporting documentation will help to evaluate performance while also illustrating areas of change and growth.

Mutual Agreement: Goals, Skills, Portfolio

By the end of September each year, a conference should be held between the appraisee and the appraiser. The objective of the conference is to establish consensus between the appraisee and the appraiser in regard to the major goals to be accomplished and criteria that will be used to judge performance in these areas. To accomplish this objective, the appraiser should be familiar with the appraisee's goals and plans of action to accomplish the goals set forth.

As a guide to the appraisee in the appraisal process, the following factors should be discussed:

1. Goals -- The appraiser should set goals that are directly related to the district's goals.
2. Policies, Procedures, and Practices -- The appraisee must demonstrate technical skills and professional knowledge necessary to effectively recommend, establish, and implement policies, procedures, and practices in his/her areas of responsibility.
3. Supervision -- The appraisee effectively demonstrates and applies the necessary skills and knowledge of administration/supervision to the programs and personnel assigned to him/her. The appraisee shall be held to a high level of performance standards. The administrator will use comprehensive data and research to make appropriate and timely decisions and will demonstrate effective leadership to make a difficult decision.
4. Decision Making-- The appraisee displays the knowledge and skills required to make effective decisions in terms of degree of independent action and effect on others.
5. Interpersonal Relations -- The appraisee displays positive attitudes in meeting with teachers, students, parents, and community members district wide.
6. Physical, Personnel, and Financial Resources-- The appraisee demonstrates use of skills and knowledge in the utilization of physical property, personnel and financial resources.
7. Creativity -- The appraisee demonstrates imagination and/or creative ability in the identification of problems and the application of solutions to administrative and/or academic problems.

Resource/Support

If necessary, additional support may be necessary to help administrators meet goals. The District will make the effort to provide that support.

Goals Redefined

Sometimes due to unfortunate circumstances, some goals must be eliminated or redefined. This must be done in a mutually respectful meeting, but in all events the final decision shall be the responsibility of the superintendent.

G. INTERIM PROGRESS MEETING

The appraiser and appraisee will meet in January to review the progress of the appraisee toward meeting his/her goals.

1. Review how well the appraisee is progressing along the pre-established plan to accomplish goals.
2. Identify any areas in which the appraisee may be having problems and mutually work out plans to overcome these problems and identify necessary support.

3. Adjust the plans as conditions change and warrant adjustment.
4. Preview appraisee's portfolio.

An interim evaluation (Rating Form) will be completed and given to the appraisee.

If the appraisee is not progressing in a satisfactory manner toward achieving his/her goals, a Plan of Improvement will be mutually developed. Meetings will be scheduled no less than monthly until improvement is met. Nothing stated herein shall be construed to mean that dismissal charges will not be brought, where appropriate, pursuant to the Public School Code.

Either party may request a meeting prior to the January review to reassess goals and to monitor and adjust plans.

H. PLAN OF IMPROVEMENT

There are times when an employee may need extra help or may not be performing up to a standard nor achieving goals in one or more areas. At this time, the appraiser must meet with the employee and formulate a Plan of Improvement. The Plan of Improvement should contain the following elements:

Recommendation:

Specific strategies, skills, or goals to be changed or refined should be stated as well as expectations for the need to improve. A list of alternatives should be developed and the appraisee should also think of effective strategies. If necessary, consequences of noncompliance should be stated.

Assistance:

Resources which are available and appropriate to support the change must be discussed and outlined.

Time for Improvement:

Realistic time parameters for when change will occur must be set. Improvement will be monitored over the span of time set by both parties. Meetings should be held no less than monthly to provide both parties with necessary feedback.

The Plan of Improvement must be written and agreed upon by both appraiser and appraisee. It should be signed and dated by both parties.

In conjunction with the Plan of Improvement, the supporting documentation should also reflect necessary changes and improvements.

If the employee fails to comply or does not improve, a rating of "Improvement Needed to Meet Shaler Area Objectives" that fell below a rating of 1.25, the administrator may face possible demotion or dismissal action.

I. THE APPRAISAL MEETING

The final appraisal meeting should be completed in June of each year. The primary objective of this appraisal meeting is to determine, as objectively and fairly as possible, the work competence of the appraisee. The appraisal meeting is a discussion between the appraisee

and appraiser centering upon accomplishment of goals, performance results, and/or potential improvement.

The appraisee should self-appraise his/her performance prior to the appraisal meeting. The appraisee should make an honest effort to assess his/her accomplishments of the goals set and accomplished.

The appraisee will present a completed portfolio at this time for review by the appraiser.

The appraiser must be prepared for the appraisal meeting. The nature of the appraisal meeting is to review the year's accomplishments. If the appraisee and appraiser have worked closely and cooperatively during the year, there is less likelihood of conflicting opinion arising during the appraisal meeting. The objective of the appraiser is to complete a thoughtful review of the appraisee's performance.

The appraisee and appraiser will discuss the total performance and review the portfolio. They will reach some general conclusions and identify possible areas needing improvement. It is an opportunity for the appraiser to encourage the appraisee to begin thinking about his/her self-appraisal for the upcoming year. Thus, the appraisal process is a cycle, which finds the administrator constantly striving to maintain administrative performance at a high level.

Copies of all performance appraisal forms should be forwarded to the Superintendent as soon as they are completed.

It is assumed that if the basic steps outlined in this process are followed, it is reasonable to expect that the participating employees will improve their performance and consequently raise the overall effectiveness of the educational program of the school district.

In the area of district goals, the Superintendent, with assistance from the Assistant Superintendent, or designee, will have input on rating the employee's achievement of district goals. If the employee has not complied with nor worked toward achieving assigned district goals, the employee's rating will be determined by the Superintendent.

In all instances, the employee's rating shall be subject to review by the Superintendent who, in the event of disagreement, shall have the final authority.

J. APPEAL PROCESS

- c. If, for some reason, agreement cannot be reached or there is a problem in evaluating the appraisee's performance during any stage of the process, the appraiser's supervisor will be invited to review the performance of the appraisee in an effort to resolve the differences.
2. If the parties still do not agree, the superintendent will be invited to review the performance of the appraisee.
3. If an agreement cannot be reached at this step, the appraisee may request a review of the differences by a committee of three selected as follows:
 - c. One member from the Shaler Area School District administrative staff by the original appraiser;
 - b. One member from the Shaler Area School District administrative staff by the original appraisee;

- c. One member randomly selected from the Shaler Area Board of School Directors.

In the case where the Superintendent is the appraiser, the appeal will go directly to the Committee level.

The Committee will review the goals and plans of action as were agreed upon by the appraiser and appraisee. The appraisee’s portfolio also will be submitted to the Committee for review.

If the Committee wishes to meet with and interview each party, the Committee will establish a time and place to do so. This should be done within three (3) weeks of the original request of the appeal of the appraiser.

Appeal decisions of the Committee will be referred to the Superintendent and/or his/her designee for his/her review and comment. The decision of the Committee shall be final.

Non-achievement of an “Exceptionally Exceeds High Shaler Area Objectives” is not applicable to the appeal process.

ARTICLE II ADMINISTRATIVE COMPENSATION

Compensation for the Act 93 Group Members is determined by an average of similar schools with respect to student population and aide ratio. District’s used to develop the “like” school average include: Baldwin-Whitehall, Bethel Park, Gateway, McKeesport Area, Penn Hills, Plum, and Woodland Hills.

A. Performance Based Salary Increases

2013-2014 School Year

	Average	>5% Below Salary Floor
1.76 – 3.0	3%	4%
1.51-1.75	2%	2%
< 1.5	No Increase	No Increase

2014-15, 2015-16, 2016-17, 2017-18 School Years

	Average	>5% Below Salary Floor
2.51 – 3.0	3.5%	4.5%
1.76-2.5	3%	4%
1.51-1.75	2%	2%
< 1.5	No Increase	No Increase

B. Loyalty Incentive

The loyalty incentive would provide administrative employees increases in salary of \$2,500 after 5 and 10 years of service in Shaler Area. Only Act 93 Employees hired prior to July 1, 2013 are eligible for this incentive.

Once an employee obtains the \$2,500 to base, a new five-year clock will begin. For efficiency in payroll, this money will be added to base at the beginning of the fiscal year once the five-year anniversary has been attained. Since administrative raises are typically approved in July and implemented in late July or early August, the fiscal year shall be defined as August 1, not July 1, for the purposes of this \$2,500 addition to base salary.

C. Annual Compensation Equity Review

Annual salary adjustment consideration will be given, above the performance based salary increases, for Act 93 members who are greater than 15% below the “like school district” average for their position. For the school board to consider this option, the employee must submit his/her request to the Superintendent for review, in writing by June 1. The written request must include the employees reasoning and supporting data for said request.

A maximum adjustment above the performance based salary increase cannot exceed 1.5% of the employee’s salary. The No salary adjustment will be considered for any employee that scores below 1.75 on their performance review.

Specific skills were frequently demonstrated and specific objectives were consistently met. He or she demonstrated good skills in both the goal/objective area and in job description category. The employee earns “proficient” on the PA Assessment Rubric.

3. Improvement Needed To Meet Shaler Area Objectives (1.50-1.75)

The employee did not consistently take advantage of planned and unplanned opportunities to achieve the agreed upon results as defined for each goal/objective and job description category. Specific goals or job description categories were not consistently demonstrated and specific objectives were not met. He or she did not demonstrate the knowledge, skills, and/or behavior to adequately achieve the objective or demonstrate the job description category. Significant improvements needed in any/all of the areas that relate to each specific goal/objective and/or job description category.
